

# St Anthony's Hospital

## Personal Profile

**Mr M. Adamo**

**Consultant Surgeon in laparoscopic and obesity surgery, University College Hospital London.**

Laparoscopic surgery (cholecystectomy, inguinal hernia repair, antireflux surgery, emergency surgery). Laparoscopic obesity surgery (gastric banding, gastric bypass, sleeve gastrectomy). Endoscopy.

Mr Adamo has been recently recruited by the University College Hospital in London as laparoscopic & obesity surgeon.

He qualified and specialised in Italy and he has been working in the NHS since 2000. He has previously practised at Leeds General Infirmary and Hull Royal Infirmary where he has developed his skills in laparoscopic obesity surgery and focused his interest in keyhole surgery, and at St George's Hospital – London.

Member of the European Association of Endoscopic Surgeons and faculty member of many national laparoscopic courses, he is fully committed and dedicated to the emerging field of advanced laparoscopic surgery.
