Mr Watkin trained in medicine at Cambridge and Oxford Universities before specialising in Urology. He became a Master of Surgery at Cambridge in 1998 and subsequently trained in South Africa, specialising in reconstructive surgery and oncology. He provides a tertiary referral practice at St George's Hospital for penile and urethral disorders with an active research programme into penile skin conditions, including penile cancer.

He is Lead Clinician at St Helier Hospital.

He also has an interest in stone disease and manages the Regional Lithotripsy Service at Sutton Hospital.
