### **Biography**

I qualified from the University of Southampton in 1984. I have worked in a variety of hospitals in England and in New Zealand. Following training in general internal medicine I specialised in rheumatology. I have particular expertise in metabolic bone diseases such as osteoporosis.

### **Conditions that I commonly treat**

- Neck and back pain
- Osteoarthritis
- Osteoporosis
- Polymyalgia rheumatica
- Rheumatoid arthritis
- Sciatica
- Shoulder pain
- Soft tissue problems such as tennis elbow and plantar fasciitis
- Systemic Lupus Erythematosus or Lupus

I am also a general in-taking physician and can treat a wide variety of common medical problems

### **Investigations available at St Anthony's Hospital**

St Anthony's is an extremely well equipped to help me investigate and treat patients with bone and joint problems. As well as having facilities for blood tests and plain Xrays, the hospital has a state of the art MRI scanner and bone

densitometer.

- Information about MRI scanning
- Information about bone density scanning

### **Health insurance companies**

I am registered to see private patients with all the major health insurance companies such as BUPA, PPP, WPA, Norwich Union, Standard Life etc.

### **Contact numbers and Appointments**

I have two clinics per week at St Anthony's Hospital

Outpatients 020 8337 6691

Secretary 020 8971 8033
